ABSTRACT

This manual, developed to provide vocational instructors or coordinators with model training plans to be used to conduct concurrent work and education programs for disadvantaged and handicapped students, has the purposes of: (1) serving as a description of the kinds of content that should be included in a training plan, (2) serving as an example in discussing training plans with employers, (3) assisting vocational instructors in developing training plans, and (4) serving as one source of occupational content for several common occupations. Each training plan, or occupation, identifies the target population. The format shows approximate time needed to learn the job skill, a list of learning activities, on-the-job training needed, in-school time needed, and spaces for evaluation and for the individual study assignment. The training plans include assembly line worker, automobile-service-station attendant, bus boy, carpenter's helper, cook helper, dishwasher, general farm hand, general housekeeper, grocery cashier, laundry worker, lawnmower repairman, machinest helper, mail clerk, physical therapy aide, steam table server, and stock clerk. FORWARD

This manual is a part of the continuing effort of Vocational Education at Indiana University to assist vocational personnel who have responsibilities for cooperative programs. The effort is directed toward aiding the instructors of students who have academic, social, physical, or other handicaps that prevent them from succeeding in regular cooperative programs. Thus, the materials contained herein are occupational training plans for a variety of possible occupations that disadvantaged and handicapped students in vocational education may undertake.

The approach used in the development of the training plan manual involved preparing vocational teachers in the techniques of training plan development and then having them return to their communities and undertake the development of model training plans. We are indeed grateful to those vocational instructors who contributed training plans and to the representatives of business and industry who assisted the vocational instructors in developing the training plans. In addition, we are appreciative of the encouragement of Mr. Roger C. Newnum, Chief Consultant for Disadvantaged and Handicapped, Division of Vocational Education, Department of Public Instruction and of the support of the Indiana State Board for Vocational and Technical Education.

OCCUPATIONAL TRAINING PLANS FOR VOCATIONAL PROGRAMS
FOR THE DISADVANTAGED AND HANDICAPPED

OVERVIEW OF THE MANUAL

The development, preparation, and dissemination of a manual of typical occupational training plans for disadvantaged or handicapped students in vocational education constituted the primary purpose of this project. It may be noted that an increasing number of vocational education efforts for disadvantaged and handicapped students involve actual work experience. In order for this work experience to be educationally sound, there needs to be a formalization of the relationship between school and the work community. In addition, a 1974 study indicated that occupational materials were a prime need of vocational teachers of the disadvantaged and handicapped.¹ Thus, this project is aimed at filling a void in the educational repertoire of vocational instructors of disadvantaged and handicapped students. It will serve as a guide that can be used in many ways as will be evident from reading the subsequent pages and applying the recommendations contained in the manual.

PROJECT RATIONALE

The provision of actual work experience is becoming an increasingly important part of vocational education for disadvantaged and handicapped students. Students are being afforded the opportunity to learn occupational, social, and personal skills in real life job settings under the supervision of the school and a cooperating employer. The theoretical basis for such concurrent work and education experiences lies in the belief that significant education does take place in the real world and that students having disadvantages and handicaps may learn readily

¹Thomas R. White, Vocational Education for the Disadvantaged and Handicapped in Indiana, A Status Report (Indiana: Indiana University, July 1974).

and experience success in actual job settings. The historical basis for such arrangements lies in a proven effective method of providing vocational education, cooperative vocational education. Thus, the emergence of concurrent work and education programs for disadvantaged and handicapped students is consistent with vocational education efforts in behalf of such students and is patterned after a highly successful method of delivering vocational education.

While cooperative vocational education has evolved into a rather highly structured set of operating principles, this is not necessarily the case with concurrent work and education efforts for disadvantaged and handicapped students. For example, cooperative vocational education emphasizes providing students an education that will lead toward an identified career. Concurrent work and education experiences for disadvantaged and handicapped students may have other primary purposes, such as student motivation, development of employability skills, or socialization. While major differences may exist between the operation of a cooperative vocational program and the operation of a concurrent work and education experience for disadvantaged and handicapped students, some similarities do exist and it is important that teachers and administrators responsible for delivering concurrent work and education experiences for disadvantaged and handicapped students be aware of the structure of cooperative vocational education.

The major similarity must be that both cooperative vocational education and concurrent work and education experiences for disadvantaged and handicapped students are school sanctioned learning involving instruction outside the school. Since cooperative vocational education is school

sanctioned and usually involves high school credit, it is incumbent upon the school and the vocational instructor to insure that the experiences realized by the students are consistent with the goals of the program and the needs of the students. Ultimately, then, the schools must accept the responsibility for assuring that learning experiences are in the interests of the student. Most often the technique employed involves the assignment of a vocational instructor who coordinates the students' in-school learning with that which occurs in the work setting.

The mechanism used in cooperative vocational education for providing the coordination between the in-school and on-the-job learning experiences is a training plan or schedule of student learning activities. This instrument is appropriate for disadvantaged and handicapped students who will be enrolled in a concurrent work and education program of vocational education. Individually tailored and jointly developed, the instrument will document quality control of the learning experiences for students both in the school and on-the-job.

A training plan possesses several distinct characteristics. First, it is developed for an individual student in order to describe the necessary in-school and on-the-job learning experiences that must be provided in order for the student to achieve specified goals. Second, it is cooperatively developed by the school representatives, or coordinator, and the employer, or training sponsor. Third, it consists of the following parts: a) a list of student learning experiences sequenced in an order judged appropriate by the developers, b) an approximate time for each of the learning experiences, c) an indication of where the learning is to

occur, d) the evaluation that will be used to determine when sufficient learning has occurred, and e) suggestions of individualized or supplemental learning that may be provided the student.

In summary, training plans are an integral part of cooperative vocational education that can be used in concurrent work and education experiences for disadvantaged and handicapped students to direct the vocational instruction needed by such students.

It most certainly must be recognized that there is no simple way to classify disadvantages and handicaps and subsequently prescribe vocational education as a remedy. Disadvantages and handicaps take many forms and result in a multitude of problems for students. However, it should be possible to view each student individually and tailor in-school and on-the-job vocational experiences to help a particular student overcome his or her handicaps to the maximum extent possible. A training plan will aid significantly in the identification of student needs and the structuring of an appropriate learning experiences.

USE OF THE MANUAL

This manual was developed to provide vocational instructors or coordinators model training plans to be used to conduct concurrent work and education programs for disadvantaged and handicapped students. The training plans contained herein should be used as guides in developing local training plans by vocational teachers. It should be noted that a deliberate attempt was made to include breadth in terms of the types of disadvantages and handicaps found among students and breadth in terms of the scope of occupations covered. While every model training plan

represents the best judgment of the developer and the business or industry representative who participated in the development of the training plans, the manual should not be conceived as a single source of learning experiences needed by students with various types of disadvantages or handicaps. The purposes of the manual, then, include: 1) to serve as a description of the kinds of content that should be included in a training plan, 2) to serve as an example in discussing training plans with employers, 3) to assist vocational instructors in developing training plans, and 4) to serve as one source of occupational content for several common occupations. It is recommended that the manual be used by the vocational instructor in the initial contact with a potential employer. The instructor can use an example from the manual to describe how the concurrent work and education experience of the student is a joint responsibility of the school and the employer. From this standpoint the manual will serve to increase the understanding of the total effort on the part of the employer and increase his/her appreciation for the educational value of work with the student.

THE DEVELOPMENT OF TRAINING PLANS

The highly complex nature of the interaction of a disadvantaged or handicapped student in vocational education with the dual learning environments afforded by concurrent work and educational experiences dictates that a training plan must be developed for each student.

Training plans are developed at the time when the student is both enrolled in the concurrent work and education program and employed. Throughout the period of vocational instruction, the training plans should

be viewed as a flexible tool which can be modified or revised as student needs change. From the very outset of a cooperative relationship with an employer, a diligent effort should be made to involve the employer in the training plan utilization. Below are listed the sequential steps for training plan development.

1. Assess the students' needs. As a professional educator, the coordinator is able to analyze each student and identify the major goals that are to be attained by that student through a concurrent work and education experience. For example, a student with a learning disability may require experiences in which he or she can find immediate measures of success. Accordingly, the coordinator should know what interests and strengths the student now possesses; e.g., being outdoors, or taking care of pets. Obviously, to recognize student needs will require the instructor or coordinator to search school records, talk with other professionals who know the student, and hold one or more interviews with the student.

2. Know the community. The needs of students must be considered in relationship to available training stations in the community. Before students are placed at training sites, the coordinator should have made a thorough canvas of potential training sights and obtained as much information as possible about the nature of stations and of the persons who are in supervisory capacities. For example, it may be very unwise to place a student with an emotional disability in a training sight which involves considerable job stress.

3. Gain a knowledge of the occupation. Once a training site is located, it is necessary for the coordinator to understand the occupation

into which the student will be placed. This is important because the primary responsibility for the training plan development is necessarily that of the coordinator. Job knowledge may be acquired by a) discussing the job with the employer, b) using resources such as The Dictionary of Occupational Titles, c) observing other workers performing the job, or d) discussing the job with incumbent workers.

4. Draft the training plan. Using the job knowledge and the analysis of student's needs, the coordinator prepares a rough draft of the possible training plan. Initially major categories, such as safety or clean-up, are listed. Then, possible learning activities are sketched in each of the categories.

5. Discuss the draft with the employer. At this point an appointment should be made with the employer to discuss the rough draft in depth. Major questions should be asked: What additional learning experiences will be needed on the job? Which of the experiences will be provided on the job, in the classroom, at both locations? Are there circumstances within this job that should be carefully considered when placing a student with certain identified disadvantages and handicaps? What is the approximate time for each of the identified learning activities? What is the best sequence of the learning activities? Are there materials or resources that might be provided the student to supplement the classroom and on the job experiences? Are there experiences that might be added to enrich the student's total learning? Can the learning experiences be evaluated adequately?

6. Complete the training plan. With input from the employer and the coordinator's own professional knowledge, the training plan can be completed.

This involves preparing the training plan formally in a presentable fashion.

It is also possible to discuss the content of the training plan with the students at this point. Thus, the student having some personal involvement with the training plan might be more ready to accept the learning that will be expected of him or her.

7. Disseminate the training plan. Copies of the completed training plan should be distributed to the employer and the student and a copy should be maintained in the student's record. When the training plan is given to the employer, it should be reemphasized that it is a flexible document that can be modified as student needs change or additional information becomes evident.

8. Use the Training Plan. The training plan is a dynamic document that should guide the student's in-school and on-the-job education. Thus, a coordinator can use the document to structure classroom learning experiences for a particular student. A coordinator also should use the document to check the progress of the student in the work situation. In other words, whenever the coordinator visits with an employer of a student, the coordinator should review the progress of the student. If the student's progress is not what was expected, then the employer and the coordinator will need to consider alternative learning activities.

The preceding steps describe the training plan development process. The effective utilization of training plans is directly related to the importance the coordinator places on the training plan and the confidence the coordinator has been able to achieve with his or her cooperating employers. Continuing and effective utilization of the training plan will add significant credibility to the concurrent work and education experience for disadvantaged and handicapped students.

On the following pages are listed model or sample training plans for sixteen occupations that might be pursued by disadvantaged and/or handicapped students in a concurrent work and education setting. Although they were developed by vocational instructors with input from business and industry representatives, the training plans must be conceived as guides. Particular student needs, program structure, and community resources will play a major part in dictating the contents of local training plans. In no case should the accompanying training plans be viewed as entirely appropriate until the coordinator has completed the steps described on the preceding pages.

Occupation - Assembly Line Worker

Suggested Target Population - Trainable Mentally Retarded

Description of Target Population - The following training plan is designed to be used with trainable mentally retarded individuals. The plan contains an outline of areas that should be covered during the in-school and on-the-job training experiences. Therefore it is necessary that some background information relative to teaching methodology and the skill acquisition level of the trainable mentally retarded be given.

The TMR is an individual who at the prevocational age level has usually had near normal physical development, although their emotional and mental (intellectual) abilities are limited. The TMR at age 18 usually has a mental age level of anywhere from 5 years to 9 years depending on the intellectual functioning abilities. It therefore is most important to recognize that the TMR learns through concrete examples and actual experiences at the task to be mastered. Lesson plans and experiences in school and on the job should be practical, simple, totally concrete, and broken down into small parts for more efficient skill development by the student trainee. Any skill to be learned should first be task analyzed by the teacher so that the parts are presented in their proper sequence and at a realistic rate. Time and repetition are necessary for full mastery of a skill. During the initial training stages a maximum amount of supervision and structure will be necessary. Although the supervision may be decreased as the skill level increases, structure should always be a part of the TMR work environment.

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

Occupation - Automobile-Service-Station Attendant

Suggested Target Population - Emotionally Disturbed

Definition of terms

The Emotionally Disturbed - An emotionally disturbed child, for purposes of special education, is one who after receiving supportive and counseling services available to all students designed to improve learning and adjustment in the regular classroom, is chronically unable to make constructive use of his school experience, as manifested by an inability to develop socially and emotionally and learn at the same rate as his classmates and who requires the provision of special educational services.

Automobile-Service-Station Attendant - Automobile-service-station salesman; filling-station attendant; gasman; gasoline-station serviceman; gas-station attendant; gas tender; pumpman; salesman, gasoline; salesman, oil; service-station attendant. Services automobiles, buses, trucks, and other automotive vehicles with fuel, lubricants, and accessories: Fills fuel tank of vehicles with gasoline or diesel fuel to level specified by customer. Observes level of oil in crankcase and amount of water in radiator, and adds required amounts of oil and water. Adds necessary amount of water to battery, and washes windshield of vehicle. Lubricates vehicle and changes motor oil [Lubrication Man]. Replaces lights, and washes and waxes vehicle. Collects payment for services and supplies in cash or by completing credit card sales form. May adjust brakes [Brake Adjuster]. May sell batteries and automobile accessories usually found in service stations. May assist in arranging displays, taking inventories, and making daily reports. (Dictionary of Occupational Titles 915.867)

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
two weeks	f. "Demonstrate" need for product whenever possible	X	X		
	17. Learn two and three man method of servicing automobiles	X			
	18. Provide street and highway information				
	a. know community	X	X		
	b. learn to interpret and distribute maps and to give accurate verbal directions	X	X		
	19. Learn to handle customer complaints				
	a. listen without overreacting	X	X		
	b. make reasonable attempt to retain customer goodwill	X	X		
	c. Refer customer to proper person for major adjustments	X	X		
	d. Obtain customer signature for cash adjustments	X	X		
	20. Thank customer for his business and encourage return business	X	X		
	Cashing Checks				
	1. Learn and observe station's check cashing policy	X	X		
	2. Learn specific procedures and safeguards				
	a. accept checks only for amount of purchase	X	X		
	b. Insist on proper identification from customer	X	X		
	c. Put endorser's address, driver's license number and license number of vehicle on check	X	X		
	d. See endorser sign check	X	X		
	e. See that there are no erasures on check, that it is in ink, and that written and numerical amounts agree	X	X		

33

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
one week	f. Accept no post dated checks, government checks or counter checks	X	X		
	g. Cash traveler's checks only if they are signed in your presence	X	X		
	Charge Tickets				
	1. Learn and observe station policy regarding approval of charge requests	X			
	2. Learn company procedure for filling out ticket including such things as:				
	a. customer's name	X	X		
	b. account number	X	X		
	c. number of gallons of gas		X		
	d. type of gas	X	X		
	e. price per gallon	X	X		
	f. any other items sold	X	X		
	g. total sale	X	X		
	h. date	X	X		
	i. initials of salesperson	X	X		
	j. license number	X	X		
	k. signature of customer	X			
	3. Learn to operate machine to stamp customer's charge plate	X			
	4. Learn proper dispersal of charge copies to customer and company	X			
four weeks	Cleanliness				
	1. Learn to keep the drive neat looking and clean				
	a. Arrange and clean display merchandise	X	X		
	b. Wash or wipe off pumps	X	X		
	c. Wash or wipe off signs	X	X		
	d. Wash island and island poles	X	X		
	e. Check pumps for damage and leaks	X	X		

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	f. Wash drive and clean up oil spots	X			
	g. Empty trash barrels	X	X		
	h. Pick up loose litter	X	X		
	i. Check gutters and drains	X			
	j. Clean covers on island lights	X			
	k. Mow grass	X			
	2. Learn proper housekeeping for the inside of the station office				
	a. mop the floor	X			
	b. wash the windows	X			
	c. clean walls & woodwork	X			
	d. clean and arrange merchandise displays	X	X		
	e. empty wastepaper baskets	X	X		
	f. organize bulletin boards	X	X		
	g. dust and organize work tables	X			
	h. remove dirty uniforms and rags	X			
	i. clean drinking fountain	X			
	j. polish metal surfaces	X			
	3. Learn proper maintenance for building exterior and the grounds				
	a. wash or paint walls	X			
	b. wash or paint fences and billboards	X			
	4. Learn proper cleaning techniques for restrooms				
	a. mop floors	X	X		
	b. clean mirrors	X	X		
	c. clean lavatory	X	X		
	d. wash walls and woodwork	X	X		
	e. clean commode and seat	X	X		
	f. refill supplies of soap, paper towels and toilet paper	X	X		
	g. empty waste receptacles	X	X		

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
one week	c. turn lights in station on and off at prescribed times	X			
	d. leave pump and ID lights on when dark or rainy	X			
	7. Learn and observe painting schedule				
	a. paint building, signs and fences as directed by the company	X			
	b. exercise care not to splatter paint on walks, drive or equipment	X			
	Receiving Merchandise from Tank Trucks				
	1. Take tank readings before and after delivery	X			
three weeks	2. Record tank readings on delivery ticket	X			
	Change of Shifts				
	1. Incoming and outgoing shiftment				
	a. count change fund separately and record data	X	X		
	b. count the inventory and record	X	X		
	c. read pump meters and record	X	X		
	d. compare readings and account for differences	X	X		
	2. Outgoing shiftman:				
	a. count cash from daily sales and record on daily report	X	X		
	b. make out bank deposit slips as requested	X	X		
	Continuous Safety Procedures				
	1. Post no smoking signs on drive	X			
	2. Allow no smoking by staff or customers on drive	X			
	3. Dispense fuel only when vehicle motor is shut off	X			

34, 35, and 36

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	4. Keep premises free from rubbish	X	X		
	5. Clean only with nonflammable liquids; never use gasoline, naphtha, etc.	X	X		
	6. Learn location of hoses and fire extinguishers and proper extinguishing methods	X	X		
	7. Do not sell flammable liquids into portable containers under 6 gallons unless they are red, metal, have a tight closure, and are fitted with a pour spout	X	X		
	8. Allow no sales of gasoline over 6 gallons except into fuel tanks of vehicles which are connected to carburation systems of the vehicles	X			
	9. Allow no self-service except on pumps designated for self service	X			
	10. Collect from customer after nozzle has been removed from his car and returned to pump	X			
	11. Store empty pop bottles in their cases	X			
	12. Clean ice and snow from walks and drives	X			
	13. Allow no drinking of alcoholic beverages on premises	X			
	14. Place station signs away from public sidewalks and pedestrian right-of-ways	X			
	Employee Safety				
	1. Know not to carry excessive amounts of money	X	X		
	2. Know not to argue or fight in the event of a robbery; concentrate on remembering description for police	X	X		
	3. Know location of emergency phone num-	X			

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	4. Know not to report details of a robbery to passers by	X			
	5. Know not to give out information on gallonage or money handling procedures	X			
	6. Count money out of sight of customers -- preferably in locked back room	X			
	7. Know procedures for dealing with civil disturbances:				
	a. contact supervisor	X			
	b. contact police	X			
	c. shut off pumps or have electric company cut off power to prevent dispensing of flammable products	X			
	d. lock up all merchandise securely	X

36. On the Job, Frank E. Richards Publishing Company, 1973.

Occupation - Bus Boy

Suggested Target Population - Mildly to Moderately Retarded

Cafeteria Bus Boy - The following training plan, concerned with teaching bussing skills in cafeteria type settings, is designed for mildly to moderately retarded persons (i.e. EMR to high-functioning TMR). The plan is designed for use by the teacher during in-school instruction, and by the employer for on-the-job training. Because of realistic difficulties in placing retarded students in public restaurants, this plan is primarily intended for employees in cafeteria settings, such as schools, factories, hospitals, or other institutions.

Prospective students of this plan must be capable of following sequenced commands, and function flexibly enough to handle the variety of jobs which "bussing" entails. The teacher must also realize that the instructional steps must be thoroughly and properly sequenced; and supervision of these special vocational students must be highly structured. This plan could be altered, obviously, to suit one's specific needs of instruction, as well as to include retarded students with mild visual, auditory, or perceptual handicaps. Yet the physical requirements of the job dictate that the students must be at least near-normal in physical development, especially in speed, balance, and strength. They also need the ability for prolonged standing, walking, lifting, stooping, and generally good use of their hands and arms. These qualifications might eliminate the orthopedically handicapped retarded student.

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

The (Name of Business Firm) will permit (Name of Student) from (Name of School)
High School to enter their establishment as an employee under the supervision of (Name) for the
purpose of gaining knowledge and experience in the occupational area of 311.878 Bus Boy so that
the student may prepare for a career as a(n) (Cafeteria) Bus Boy

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	Skills Related to Job Success				
	1. Know how to use public transportat		X		Obtain and be able to read bus schedule
	2. Know personal data; name, address, phone, social security		X		Apply for social security card
	3. Know how to punch time clock	X	X		
	4. Know scheduled break and lunch times	X	X		
	5. Know how to call in sick and not to go to work when ill	X	X		
	6. Know company policy on tardiness and absenteeism	X			
	7. Know how to endorse and cash pay check		X		
	8. Know how to save money, spend for necessities and provide for recreation		X		
	Grooming Skills				
	1. Keep body and hair clean and hair combed	X	X		
	2. Use underarm deodorant				
	3. Brush teeth and use mouthwash before work	X	X		
	4. Keep fingernails clean and clipped	X	X		
	5. Wash hands after every trip to rest- room and after lunch and breaks	X	X		
	6. Keep clean handkerchief for coughing and noseblowing, wash hands after using handkerchief	X	X		

Approximate Time	Learning Activities	QJT	Individual Study Assignment
continuous	17. Turn off all equipment when not in use, or if not working properly 18. Do not attempt to carry too many trays of dishes to dishroom, generally 6-8 settings is enough 19. Use caution in measuring and pouring solvents, disinfectants, and other cleaning chemicals 20. Use both hands when bussing or carrying trays, for speed and safety 21. Keep all unneeded supplies put away and return all equipment to proper place at end of day 22. Never engage in "horseplay" while on the job	X X X X X X X	X X X X X X X
eight weeks	Bussing Tables 1. Set bussing cart near table, not blocking aisle or set loading tray firmly on table 2. Use one hand to pick up paper; place on correct side of cart 3. Use other hand to pick up silverware, keeping handles in same direction and load on cart 4. Using rubber scraper, scrape garbage from plate or tray into garbage area on cart 5. Stack largest plate in center of tray or cart 6. Continue stacking with salad bowl, dessert plate, and saucers. 7. Stack glasses and cups in separate cart area or part of tray (Do not double stack, or place other items in glassware. Do not empty contents into garbage)	X X X X X X X	

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
six weeks	8. Continue with each place setting around table until cart full or stack up to 6 full settings of dishes at one time	X			
	9. Push cart or carry trays of dirty dishes to conveyor or dishroom	X			
	10. Request help if more than three tables need bussing at one time	X			
	11. Properly unload cart and return to dining area with empty cart	X			
	Cleaning Tables				
	1. When dishes removed, use clean, damp towel to clean tables	X	X		
	2. Wipe from middle to ends until entire table is clean	X	X		
	3. Cup hand and catch crumbs at edge of table and put crumbs in garbage holder	X	X		
	4. Wipe up major food messes with napkins first, then with towel	X	X		
	5. Thoroughly clean area where loading tray was placed	X	X		
	6. Wipe exterior of salt, pepper, condiments with towel	X	X		
	7. Arrange condiments, etc., in center of table	X	X		
	8. Wipe ashtray with napkin or replace and stack dirty ones on tray	X	X		
	9. Wipe off chairs with towel and push in neatly	X			
	10. Pick up any paper or debris from around floor area of table	X	X		
	11. Rinse out towel in clear, warm water before reuse	X	X		
	12. Place chairs upon tables at end of day	X			

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
six weeks	Filling Service Bars and Dishes 1. Check service bar for supplies and working condition of equipment 2. At self serve bars, keep adequate supply of foods (e.g. coffee, tea, ice, salads, condiments) 3. Inform waitress or kitchen help if supplies are low 4. Fill sugars, salts, peppers, creamers, condiments, as needed 5. Replace napkin supply as needed 6. Watch silverware and tray stations for supply and inform dishroom if supplies are needed 7. Wrap silverware in napkins and place in containers	X X X X X X X			
four weeks	Cleaning and Sweeping 1. Clean and dry shelves of service bars and salad bars with clean towel 2. Take coffee and tea containers, creamers, etc. to dishroom 3. Clean belt and stainless steel around conveyor with damp towel 4. Wipe up or mop spilled items immediately with clean, odorless mop 5. Use pushbroom, and regular broom with dustpan, to gather dry debris from floor at service areas 6. Use vacuum on carpet at end of day 7. Put all cleaning supplies away when finished	X X X X X X X			
four weeks	Restroom Cleaning 1. Use separate sponges and cleanser to clean sinks and toilets, scrub and rinse 2. Place disinfectants in toilet bowls regularly	X X			

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
continuous	3. Pick up paper towels and debris from floor	X			
	4. Empty trash into incinerator or trash bag	X			
	5. Refill towel containers (paper or cloth)	X			
	6. Fill bucket with proper amount of water and soap solution	X	X		
	7. Mop floor of restroom clean, leave as dry as possible	X	X		
	8. Empty mop water and change mop head as needed	X	X		
	Customer Relations				
	1. Carry full trays for children or adults as needed	X			
	2. Pick up trays after customers are seated	X			
	3. If silverware is dropped, bring clean setting with napkin underneath	X			
	4. Listen to complaints and politely answer questions. Refer questions to manager as necessary	X	X		
	5. Be friendly but not overly social with customers	X	X		

Occupation - Carpenter's Helper

Suggested Target Population - EMR-Academically Disadvantaged

Target Population - The following training plan is designed for those with reading difficulties.

47

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

The (Name of Business Firm) will permit (Name of Student) from (Name of School)

High School to enter their establishment as an employee under the supervision of (Name) for the purpose of gaining knowledge and experience in the occupational area of 01.14 Construction Worker so that the student may prepare for a career as a(n) Carpenter's Helper.

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment*
two weeks	Learn Employment Requirements 1. Know program requirements 2. Know age requirements 3. Know job restrictions 4. Know safety requirements		X X X	Discussion " " "	
on-going	Safety 1. Exhibit safe working habits with hand tools 2. Exhibit safe working habits with inflammable materials 3. Exhibit safe working habits with inflammable liquids 4. Know and wear proper work clothing a. helmet b. shoes	X X X X X	X X X	Observation On-going " " "	1. Hand tool flip charts 2. 3. 4.
two weeks	Job Requirements 1. Fill out job application 2. Know how Social Security is deducted and why 3. Know Internal Revenue Service deductions - reasons		X X X	Discussion Observation Discussion participation	Locate three jobs in "want-ads" and tell job requirements Fill out application a. with help b. without help Fill out S.S. form * Number codes refer to films listed on page 5

Approximate Time	Learning Activities	OUT	In School	Evaluation	Individual Study Assignment
two week on-going	4. Know entry level requirements for workers in this field		X		5
	Hand Tools			Observation	
	1. Know and use different types of hammers properly			"	6
	a. use claw head		X	Drives nails properly, observes safety	
	b. use ripping head	X	X	Rips boards apart safely	
one week on-going	Learn to Properly Use Measuring Tools			Observation	
	1. Use tape measures		X	Measure 10 different dimensions	7
one week on-going	2. Use rulers (folding)		X		
	Learn to Properly Use Cutting Tools			Observation	
	1. Use hand saws				
	a. rip	X	X	"	Rip various woods
	b. crosscut	X	X	"	Cut various woods to size
	c. special	X	X	"	
	2. Use drills				
	a. hand	X	X	"	Drill correct size hole at proper location
	b. auger	X	X	"	
	3. Use shaping tools				
	a. hatchet	X	X	"	Sharpen stakes
	b. chisel	X	X	"	Reset wood for hinges
	c. plane	X	X	"	Square a wood block

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
one week on-going	Learn to Properly Use Power Tools				
	1. Use electric hand saw	X	X	Observation	8
	2. Use electric fixed saw	X	X	"	
1/2 week	3. Know use of and recognize a router		X	"	Tool identification
one week	Learn to Properly Use Staging and Extension Equipment			Discussion & observation	9
	1. Select and use ladders	X	X	"	
	2. Assemble staging	X	X	"	
one week on-going	Learn to Properly Do Framing				
	1. Use measuring tools to lay out 16" OC -24" OC	X	X	"	Layout stud location on plate and mud sills
	2. Use square to mark layout	X	X	"	
on-going	3. "Stage" wall studs for use in correct stacks	X	X	"	Stack various types of lumber
1/2 week	4. Measure, cut and secure "mud sills"	X	X	"	Cut, drill (to size) 2" X 8" or other size lumber
1/2 week on-going	5. Fasten (nail, brad or spike) floor joist to layout	X	X	Observation	Parts of house slides
two weeks on-going	6. Secure ceiling joist from stock and stage	X		"	
one week on-going	7. Use nail gun (air) safely	X	X	Discussion Observation	Load and clean nail gun
one week	8. Lay out floor decking				
	a. Know types of floor decking	X	X	"	10
1/2 week	9. Measure and cut ceiling joists to required lengths	X	X	"	
1/2 week on-going	10. Secure and stack rafters or truss units	X	X	"	Stack rafter lumber
1/2 week on-going	11. Secure, stack and cover roof decking	X	X	"	Stack roofing materials
1/2 week on-going	12. Measure and cut to size required blocks and blocking using hand and power saws	X	X	Discussion Observation	

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
on-going	Learn Proper Site Clean-up:				
	1. Salvage useable materials	X	X	Observation	
	2. Reduce safety hazards	X	X	"	
	3. Sweep/clean site and work area	X	X	"	
	4. Clean and secure tools and equipment	X	X	"	

Study Assignments and Film List

All films listed are available from Indiana University, Bloomington, Indiana.

1. See film on hand tool use: The Woodworker 11 min. I.U.
2. See film on job safety: Safe Use of Tools: A Safety Film for Children 8 min., LSC - 10
3. See film on fire hazards: Fire 11 min., FSC 1094; The Fire Triangle 13 min., LSC 448
4. See film on job safety: Safety in the Shop 13 min., LS 31
5. Slides on You Want to be a Carpenter
6. See film on using hand tools: Hand Tools for Woodworking 22 min., MSC 513
7. See film on measurement (Metric & English): Measurement 11 min., FSC 1186
8. See slides or film strip on safe use of power saws.
9. See film on use of ladders.
10. See film on types of floors and types of plywood.

Additional Films

Hand Plane 12 min., MSC 433

Hand Saws, Cross Cut and Rip 12 min., MSC 434

Safety in the Home 9 min., LS 4

Building a Home 11 min., ISC 568

Homes Around the World 11 min., GSC 1015

Occupations - Cook Helper

Suggested Target Population - Academically Disadvantaged

Target Population - Food Services - Cook Helper -- organized subject matter and learning experiences related to the sales supporting tasks performed by distributive employees in establishments serving prepared foods and drinks for consumption on their own premises or at a place designated by the customer.

SS

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

The (Name of Business Firm) will permit (Name of Student) from (Name of School)
 High School to enter their establishment as an employee under the supervision of (Name) for the
 purpose of gaining knowledge and experience in the occupational area of Food Services so that
 the student may prepare for a career as a(n) Cook Helper

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
two weeks	Knowledge of Work Area 1. Learn location of storage areas for food stuffs 2. Learn location of all cooking utensils and equipment 3. Learn location of maintenance tools	X X X			
all year	Care and Maintenance of Work Area 1. Know to keep floor clean 2. Know and observe proper care and service of all equipment 3. Know and observe proper care of cooking utensils 4. Observe proper procedures for removing garbage and trash from the work area 5. Know to keep food preparation counter top clean at all times 6. Clean and maintain stockroom 7. Know health department rules and regulations that pertain to proper job performance	X X X X X X X	X X X X X X		

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	Cook Assistance				
	1. Obtain supplies for cook	X			
	2. Dish up individual servings of prepared foods	X	X		
	3. Learn to observe proper storage of prepared foods	X	X		
	4. Prepare and deliver food plates to serving personnel	X	X		
	5. Assist in preparation of foods upon request	X			
	6. Advise cook on depletion of supply inventory	X			
	Preparation of Fruits and Vegetables				
	1. Learn proper storage techniques	X	X		
	2. Learn proper cleaning techniques	X	X		
	3. Develop knowledge of proper dressings for various fruits and vegetables	X	X		
	Use of Equipment				
	1. Prepare equipment for use by the cook	X			
	2. Assist cook in the operation of equipment	X			
	3. Learn to clean, service, and store equipment	X	X		
	4. Learn to observe proper safety procedures in the use of equipment	X	X		
	Miscellaneous Responsibilities				
	1. Develop pride in a neat, clean personal appearance	X	X		
	2. Observe proper dress regulations	X	X		
	3. Exhibit good working habits	X	X		
	4. Develop good human relations skills in working with the employer and other employees	X	X		

Occupation - Dishwasher

Suggested Target Population - Trainable Mentally Retarded

Description of Target Population - The following training plan is designed to be used with trainable mentally retarded individuals. The plan contains an outline of areas that should be covered during the in-school and on-the-job training experiences. Therefore it is necessary that some background information relative to teaching methodology and the skill acquisition level of the trainable mentally retarded be given.

61 The TMR is an individual who at the prevocational age level has usually had near normal physical development, although their emotional and mental (intellectual) abilities are limited. The TMR at age 18 usually has a mental age level of anywhere from 5 years to 9 years depending on the intellectual functioning abilities. It therefore is most important to recognize that the TMR learns through concrete examples and actual experiences at the task to be mastered. Lesson plans and experiences in school and on the job should be practical, simple, totally concrete, and broken down into small parts for more efficient skill development by the student trainee. Any skill to be learned should first be task analyzed by the teacher so that the parts are presented in their proper sequence and at a realistic rate. Time and repetition are necessary for full mastery of a skill. During the initial training stages a maximum amount of supervision and structure will be necessary. Although the supervision may be decreased as the skill level increases, structure should always be a part of the TMR work environment.

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

The (Name of Business Firm) will permit (Name of Student) from (Name of School) High School to enter their establishment as an employee under the supervision of (Name) for the purpose of gaining knowledge and experience in the occupational area of 318.887 Kitchen Helper so that the student may prepare for a career as a(n) Dishwasher

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	Orientation to Employment Related Skills				
	1. Cleanliness and personal grooming				
	a. keep hair and body clean	X	X		
	b. use underarm deodorant	X	X		
	c. keep uniform clean and dry	X	X		
	d. wear clothing protection	X	X		
	e. wash hands when arriving at work, after using rest room, after coffee breaks and lunch breaks	X	X		
	f. Carry and use a handkerchief as necessary	X	X		
	2. Know how to use public transportation to get to and from work		X		
	3. Know when breaks begin and end. If unable to tell time, use a kitchen timer	X	X		
	4. Reporting illness				
	a. know how to call in sick	X	X		
	b. if ill, stay home	X	X		
	5. Obtain a social security card		X		
	6. Learn to handle finances				
	a. know how to endorse a paycheck		X		
	b. know how to cash a paycheck		X		
	c. know how to handle a paycheck properly, to use money wisely		X		

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
four weeks	Sweeping and Mopping Duties 1. Gather dry debris from the floor with a push broom and regular broom 2. Pick up debris and place debris in waste container 3. Fill a mop bucket with the proper amount of water and disinfectant solution 4. Use a mop wringer on a mop bucket 5. Mop floor of work area clean and leave as dry as possible 6. Mop under rubber floor mats and other floor coverings 7. Mop under and behind stoves, refrigerators, and other kitchen equipment 8. Change a soiled wet mop 9. Dispose of a soiled mop 10. Empty mop water at end of shift or when dirty	X X X X X X X X X X	X X X X X X X X X X		
four weeks	Cleaning and Washing Duties 1. Prepare cleaning solution 2. Wash work tables 3. Wash out refrigerators 4. Wash out garbage cans and trash receptacles 5. Wash pots and pans by hand 6. Wash trays, steam tables, and pans by hand 7. Wipe area around dish washer dry from water over spray	X X X X X X X	X X X X X X X		
two weeks	Sorting Trash Duties 1. Place garbage and non-burnable items into containers with lids 2. Place burnable items into separate containers	X X

	11. Do not touch prongs or bowls	X			
	12. Always wear head cover when on duty	X			
	Garbage Disposal Duties:				
	1. Use cold water when running disposal to keep motor cool	X			
	2. Sort pop bottle tops, and other metal from garbage to be disposed	X			
	3. Sort out paper from disposal garbage	X			
	4. Keep hands away from disposal opening at all times	X			
	5. Push garbage in with wooden spoon or rubber spatula	X			
	6. Get help if disposal jams. Do not attempt to free unit with hand	X			
continuous	Safety in the Work Area				
	1. Keep floors mopped dry to avoid falls	X	X		
	2. Keep work area clean	X	X		
	3. Report all machines and equipment that may be broken or not working properly	X	X		
	4. Practice use of fire extinguisher		X		
	5. Know location of all fire exits	X	X		
	6. Know how to report a fire	X	X		
	7. Know duties in case of fire	X	X		
	8. Know how to report an accident or injury	X	X		
	9. Know where to get first-aid	X	X		
	10. Keep all unneeded supplies put away	X	X		

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	11. Follow directions and use caution in handling solvents, disinfectants, and other chemicals	X			
	12. Keep hand out of and away from running equipment	X			
	13. Turn off dishwasher if temperature is not right	X			
	14. Do not open dishwasher when in operation	X			
	15. Do not touch soap when filling dispenser	X			
	16. Keep hands away from garbage disposal opening	X			
	17. Take care when removing dishes from washer so as not to be burned	X			
	18. Use caution near hot stoves and ovens	X			
	19. Wear head cover when on duty	X			

Occupation - General Farm Hand

Suggested Target Population - Learning Disabled

Definition

Learning Disabled - A student with neurological impairments/learning disabilities exhibits severe specific defects in perceptual, integrative or expressive processes which severely impair learning efficiency. Neurological impairments/learning disabilities include conditions which have been referred to as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia and developmental aphasia and may be manifested in disorders of listening, thinking, talking, reading, writing, spelling, or arithmetic. They do not include learning problems which are due primarily to visual, hearing, or motor handicaps, to mental retardation, emotional disturbance, or to environmental disadvantages. Children enrolled in programs for the neurologically impaired/learning disabled shall be those who are chronic failures in the regular classroom setting and are seriously deficient in educational skills.

Occupation - Grocery Cashier

Suggested Target Population - Socio-Economically Disadvantaged

Training Plan - Grocery Cashier - Introduction and Target Population - The following training plan describes necessary skills for a grocery cashier. This plan thoroughly outlines specific skills related to running registers, ringing orders, sacking, etc. Other jobs may actually be required of a cashier, especially some cleaning or stocking duties; these have been more completely outlined in a separate plan. The teacher should recognize that there may be overlap in skills between many grocery jobs, and this is reflected in these plans. The flexibility and scope of the cashier's job will depend largely on the type, size and location of the grocery; defined union rules and employer's specifications. Some skills are essentially required for any cashier. These include good hygiene, health and strength; communicative ability with the public; and basic math and reading skills.

3
In discussing disadvantaged and handicapped students with employers they placed stress on adequate job functioning. That is, store managers seemed less concerned with "labels" than with "can the person perform the tasks?" For the most part, they were of a cooperative nature, biased only by a common concern for their business and profits. Managers told of hiring workers with speech impediments, or the hard-of-hearing; in each case, the person's obvious interest and hard work was stronger than any limit in communications. They were also supportive of such a program helping inadequate students who may still become valuable workers. The target population is, therefore, not limited to specifics. With only some individual variations in skill, this plan could serve persons with some communications problems; someone with a leg loss or handicap; (or even perhaps wheelchairs). It could also be used for many disadvantaged learners (managers especially seemed interested in "near-dropouts"); they were more rigid about the mentally retarded. Specific skills necessary are good use of the arms and hands; and good perceptual ability to coordinate right/left and eye-hand movements. (This may eliminate the learning disabled.)

I propose that a teacher shouldn't necessarily have a difficult job in finding cooperative store management to implement the use of this plan with a variety of handicapped or disadvantaged learners (with exceptions as noted). I would suggest also checking with union personnel and rules to avoid creating employee relation problems.

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

The (Name of Business Firm) will permit (Name of Student) from (Name of School) High School to enter their establishment as an employee under the supervision of (Name) for the purpose of gaining knowledge and experience in the occupational area of Grocery Clerk/Cashier so that the student may prepare for a career as a(n) Cashier in a Grocery Store

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
one week	Use of Cash Register 1. Opening Register a. pick up register key and money drawer from office b. insert key into register to unlock c. slide in money drawer and, if directed to, count to be sure total amount of cash is correct d. take a register reading to begin the shift and place the reading tape under the cash drawer e. lock the machine by removing the register key whenever leaving the register	 X X X X			Items b,c,d, and e may be practiced in school if a register is available
four to six weeks (basics)	2. Operating the Register a. greet customers pleasantly b. switch on belt to move items to register c. pick up each item, read price and punch appropriate keys on the register d. hold down price key when there is more than one item of the same price	 X X X X	X		

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
one week	e. determine proper tax, if any, either on item-by-item basis or as a special key total and ring up amount of tax on register before final total	X			Study and learn list of taxable items
	f. develop speed and accuracy in using the cash register	X			Special practice on math skills for reading and punching prices
	g. develop speed and accuracy in mentally multiplying or dividing prices	X	X		
	h. look in and under customers cart discreetly to be sure it is entirely unloaded	X			
	3. Closing Register				Items a, b, c, and d may be practiced at school if a register is available
	a. take a register reading and place in cash drawer along with opening register reading tape	X			
	b. remove cash register drawer from register	X			
	c. close register drawer and remove and place register key in cash drawer	X			
	d. turn in cash drawer at office	X			
	4. Special Machine Operations				
one to two weeks	a. learn to correct incorrect punches and to make out proper void tickets and/or reports	X			Learn store procedure for redeeming coupons from the manufacturer or producer
	b. learn to accept and process customer coupons (there may be a register key to facilitate this activity or cashier may have to compute amount manually)	X			
	1) check validity of coupon date and whether customer has correct item	X			

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
two to four weeks	2) place all coupons under cash drawer or other designated register area and turn in with cash drawer at end of shift	X			
	3) handle coupons as cash	X	X		
	c. know to offer "raincheck" for temporarily out-of-stock sales items				
	1) know how to fill out raincheck	X			
	2) know when a substitute item may be offered	X			
	Handling Money				
	1. Accepting Checks				
	a. tell customer the amount owed after complete order is rung up on register	X			
	b. accept check only if customer has a store check-cashing card or if the check has been "O.K.'d" by a supervisor	X			
	c. permit customer to write the check for either the exact amount owed, or with approval, for a specified amount over the amount of purchase	X			
	d. stamp back side of check for deposit and at the completion of the transaction place it in a separate compartment of the cash drawer	X			
	2. Accepting Cash and Making Change				
	a. tell customer the amount owed after complete order is rung up on register	X	X		
	b. take money from customer; state amount given out loud and lay cash on register ledge above cash drawer	X	X		

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
two to three weeks	c. count necessary change from cash tendered when removing it from drawer	X	X		
	d. count change outloud as it is given to customer	X	X		
	e. place cash received in register drawer once customer has accepted change as correct amount owed him	X	X		
	f. tear off register receipt and give to customer	X	X		
	Sacking Groceries				
	1. Use box items to aid in squaring off corners of sacks	X	X		Sacking may be practiced either at home or at school
	2. Load canned goods in bottom of sack along with large boxes and milk cartons	X	X		
	3. Place light and breakable items (produce, breads, eggs, etc.) at top of sack	X	X		
	4. Load cold items together (double bag if so instructed) to help preserve them in transit				
	5. Load drippy items (meats, some vegetables) in separate, small (plastic) bags				
	6. Avoid loading soap products with meats or other fresh perishables				
	7. Load very heavy items (potatoes, soft drink cartons) directly into shopping cart	X	X		
	8. Load all sacks into cart for customer	X	X		
	9. Call for carry out assistance when necessary	X			
	10. Thank customer	X			

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
Continuous	11. Call for a sacker if a line of customers develops	X			
	Safety in Work Area				
	1. Know location of all fire exits and personal responsibilities in event of an emergency	X			
	2. Practice use of fire extinguisher		X		
	3. Keep register and floor area clean of debris	X			
	4. Straighten rows of shopping carts; never let carts block exit	X			
	5. Caution customers and children not to place hands along moving belt on the register counter	X			
	6. Give reasonable aid to customer who suffers an accident on store property; call for help if needed and secure names of witnesses to the accident	X	X		Unit on basic first aid and what to do in emergency situation
	7. Know and observe all general safety rules for the store	X			
	8. Avoid overloading grocery sacks	X	X		
	9. Know to keep calm in the event of robbery; quietly follow all commands without undue panic	X	X		
	10. Report suspected shoplifter to manager; do not approach or try to apprehend person by self	X	X		
	11. Wear low heeled, well built shoes with support stockings if necessary to stand for prolonged period of time	X	X		
	Miscellaneous Duties				
	1. Be flexible in helping fellow employees when time permits; but do not leave register area without locking the register	X			

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	2. Weigh and price produce if scale is located at register counter	X			
	a. be aware of weekly "special" prices	X			
	b. place produce in separate bag for protection	X			
	3. Inserting register tape				
	a. keep extra roll of tape at check-out lane	X			
	b. check tape periodically; avoid running out a roll during a busy time or in the middle of ringing up an order	X			
	c. call for assistance if unable to insert new roll and customers are waiting in line	X			
	4. Check periodically and maintain an adequate supply of sacks of various sizes	X			
	5. Check cash in drawer often; call for a pickup when an excessive amount of cash accumulates in the cash drawer	X			
	Customer Relations				
	1. Project friendly personality to all customers	X	X		
	2. Call for managerial assistance when customer request or demand exceeds cashier's authority to act	X			
	3. Avoid any type of argument with a customer	X	X		
	Personal Appearance and Grooming				
	1. Keep hair and body clean				
	2. Use a good deodorant	X	X		
	3. Wear clean, neatly pressed uniform or outfit to work	X	X		

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	4. Wear hair in style that will not require attention during working hours	X	X		
	5. Keep fingernails clean and trimmed	X	X		

Occupation - Laundry Marker

Suggested Target Population - Hard of Hearing

Definition of terms

The Deaf Pupil - A deaf pupil is one in whom the sense of hearing is non-functional for the ordinary purposes of life. This general group is made up of two distinct classes based entirely on the time of loss of hearing.

- a. The congenitally deaf - those who were born deaf
- b. The adventitiously deaf - those who were born with normal hearing but in whom the sense of hearing becomes non-functional later through illness or accident. (Rule S-1)

Clothes Marker; Counter Girl; Counterman; Entry Clerk; Garment Marker; Receiving Checker - Performs any combination of the following duties in marking, sorting, and recording soiled garments, linens, and other articles received for cleaning and laundering: Opens bundle or bag and spreads articles on worktable. Examines articles for and records defects, such as holes, stains, tears, and ripped seams. Compares articles with customer's listing or records them by hand or by using listing-pricing machine. Affixes or marks customer-identifying symbols on soiled articles by one of the following methods: (1) Adjusts numbered disks of marking machine by hand to set code number; places article or cloth tag under disks, depresses pedal or pulls lever that forces disks against article or tag to print code; pins or staples tag to article. (2) Writes code number on garment or tag with pen and waterproof ink; pins, staples, or sews tag to garment. (3) Positions garment under stapling machine and pulls lever that staples short length of tag to garment; writes identifying code on tape. (4) Presses lever of clipping machine that fastens metal clip to garment. (5) Depresses keys of marking machine that prints identifying symbol on garment. (6) Seals identification tape on article, using patching machine and adhesive tape. Routes defective articles to SEAMSTRESS for repairs. Sorts articles according to color, degree of soil, and type of materials or treatment. Measures articles with yardstick or measuring tape to determine charges and records measurements to insure articles are finished to original size. Removes buttons, ornaments, and other trimmings from soiled garments and replaces them on cleaned garments. Places sorted articles in different colored nets or ties them in bundles and attaches tags that indicate work to be performed, such as method of cleaning, articles to be starched or tinted, and pretreatment of stained articles. Counts finished articles for completeness of order and verifies count with plant records. (Dictionary of Occupational Titles 369.887)

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

The (Name of Business Firm) will permit (Name of Student) from (Name of School) High School to enter their establishment as an employee under the supervision of (Name) for the purpose of gaining knowledge and experience in the occupational area of 369.887 Marker (Clean & dye and press & laund) so that the student may prepare for a career as a(n) Marker in the laundry and dry cleaning industry.

Occupation - Machinist Helper

Suggested Target Population - Socio-Economically Disadvantaged

Machinist Helper - The following training plan is designed to prepare individuals with basic skills required in machine trades in order that entry level employment may be obtained. Specifically, the training entails understanding tools, equipment, terminology, materials, and measurement and applying knowledge to the set up and operation of particular equipment.

The target population for this training plan consists of those students who are classified as socio-economically disadvantaged. The acquisition of the identified job skills and employability skills may enable the student to advance within the machine trades area after obtaining appropriate entry level occupational experience.

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

The (Name of Business Firm) will permit (Name of Student) from (Name of School)

High School to enter their establishment as an employee under the supervision of (Name) for the purpose of gaining knowledge and experience in the occupational area of 17.2302 Machine Shop so that the student may prepare for a career as a(n) Machinist H. per

	2. Develop good human relations skills in working with supervisor and other employees	X	X		

Occupation - Physical Therapy Aide

Suggested Target Population - Disadvantaged Students

Physical Therapy Aide Training Plan.- Introduction - This training plan is a descriptive outline of the skills necessary for physical therapy aides. It is important to recognize that some of the analyses of job skills in this plan may seem incomplete: it was discovered during interviews that job descriptions vary widely according to location and patient population. Job descriptions may also reflect individual training differences of the physical therapists, who are in turn primarily responsible for training the aides. Because they also differ with individual patient treatment plans, job skills themselves were difficult to define and thoroughly categorize. The notion of people with physical or mental handicaps working as physical therapy aides often meets with unease within the profession. This perhaps reflects the professional training image which most medical fields try to maintain; the suspicion seemed to be that the handicapped could not fill this image.

It is necessary to distinguish between a physical therapy assistant and a physical therapy aide. The physical therapy assistant's instruction comes from a rigorous 2-year college associate degree program; state testing and licensing is also required. The physical therapy aide is trained primarily on-the-job by the registered physical therapist, who has had a four-year, highly selective professional training program in college. The caution regarding handicapped students in general is perhaps somewhat justified when one considers the rigorous training which a registered physical therapist experiences to become a professional allied health person. It is especially important to note the reality of this concern towards the handicapped when the teacher initiates the use of this plan.

Physical Therapy Aide Training Plan - Target Populations and Locations - In the departments interviewed, there was better acceptance of training disadvantaged students (who were considered to be free of most mental and physical "handicaps") to be successful physical therapy aides. The disadvantage could be educational, especially as long as the student maintained approximately a junior high level of reading, arithmetic, and writing skill. This is important for any possible paperwork which the aide may do. Some clinics require a high school diploma, but most agreed that much of the training was of necessity on-the-job, and specific to particular patients. If the student trainee's disadvantage was "social," or involved such student problems as delinquency, there was more caution and concern from the department heads, who were not anxious to train students extensively in the basic patient relations and professional ethics related to the job.

There was much emphasis on the need for good physical health and strength in properly helping to lift, transport, and exercise patients. One therapist also noted that good physical stature is important in communicating "physical normalcy" as a goal for a debilitated patient. (For example, it was noted that a stroke victim needs a good model to motivate him to re-learn proper walking gaits).

I strongly suspect from my own experiences with these interviews that a teacher of the disadvantaged would need a fairly cooperative and persuasive manner to convince physical therapy departments to help train students as physical therapy aides. Perhaps contacting smaller clinics or private nursing homes would lead to more successful use of this plan than in applying it to a larger metropolitan hospital setting. In the larger settings, there was more reluctance to take the time, budget the money, or accept the liability of student trainees.* I feel these are basically realistic and justified concerns. The smaller nursing homes also especially tended to have long-term recuperative and handicapped patients, allowing the student aide and the patient time to adjust personally to each other and the job, unlike the constant short-term patient care common to many clinics and hospitals.

*There are several probable reasons for this reluctance. First, one must realize that a registered physical therapist pays liability insurance and essentially bears the expense of the lawsuit if sued. Also, there may not be adequate time to participate in the supervision of students.

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

The (Name of Business Firm) will permit (Name of Student) from (Name of School)

High School to enter their establishment as an employee under the supervision of (Name) for the purpose of gaining knowledge and experience in the occupational area of Physical Therapy so that the student may prepare for a career as a(n) Physical Therapy Aide (P.T.A.)

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
Continuously	Professional Ethics and Behavior <ol style="list-style-type: none"> 1. Learn not to discuss patients, their treatment, records or family history with anyone other than the professional clinic staff or the Registered Physical Therapist 2. Develop the professional maturity to avoid teasing or joking about a patient's condition with anyone 3. Observe all rules regarding limited access to patients medical records 	X X X	X X X		Student should read any books or pamphlets on appropriate job behavior that may be suggested by the Registered Physical Therapist
Continuously	Behavior and Role of the Employee <ol style="list-style-type: none"> 1. Learn to recognize personal knowledge and training limitations 2. Develop ability for gentle and responsible patient handling 	X X	X X		Students might practice massage on one another - object is to learn gentle familiarity with touch and pain avoidance

Occupation - Steam Table Server

Suggested Target Population - Educable Mentally Retarded

Target Population - The following training plan is designed for the educable mentally retarded. The student, educable mentally retarded, will exhibit minimum qualifications for the job in the areas of memory, speed and coordination, and appearance. The training plan assumes the school has a steam table or kitchen to which the teacher would have access for training purposes.

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

The (Name of Business Firm) will permit (Name of Student) from (Name of School) High School to enter their establishment as an employee under the supervision of (Name) for the purpose of gaining knowledge and experience in the occupational area of Food Service so that the student may prepare for a career as a(n) Steam Table Server

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
four weeks	Knowledge of Nutrition 1. Exhibit knowledge of the general categories of foods, the body's daily requirements and how foods contribute to health		X	Test	View film: <u>Foods that Build Good Health</u>
two weeks	2. Exhibit general knowledge of special diets: diabetes, organic disorders (ulcers, liver), allergies, reducing diets and pregnancy		X	Test	View film: <u>Foods, Fats and Fryers</u>
four weeks	Food Vocabulary 1. Exhibit knowledge of the basic terms involved in food preparation		X	Test	Work with chart of terms and definitions
one week	2. Pronounce and demonstrate knowledge of common foreign food terms found on menu boards such as <u>du jour</u> , <u>a la carte</u> , <u>tetrazzine</u> , <u>stroganoff</u> , <u>pizza</u> , <u>cacciatore</u>		X	Oral Test	Listen to correct pronunciation on tape and tape own pronunciation
	3. Spell the common items found on menu boards		X	Test	Study spelling list with accompanying tape to pronounce the words

*For specific information related to these assignments, see bibliography of books, pamphlets, films, and filmstrips on pp12-13 of this training plan.

Occupation - Stock Clerk

Suggested Target Population - Mildly Retarded

Introduction - This training plan is an analysis of skills necessary for grocery stock-persons. The job title is somewhat misleading because the actual job definition of "stock-person" can be so broad as to include the skills necessary in cleaning, sacking, and cashiering, also. Much of what the job encompasses is determined by the size of the grocery store, the capabilities of the employee, and variations in union rules, which determine much policy for many large grocery chains. The physical requirements of the job include strength (especially use of both arms, for lifting, shelving, etc.); prolonged ability to stand (especially for cashiering); and general health (needed for any public contact job).

Target Population - The following plan is designed for mildly retarded persons (i.e. high EMR range), who are also hearing impaired (i.e. partially hearing, possibly with use of hearing aid). Persons who function in the high educable range are generally capable of basic reading and writing skills. Stocking also requires a basic knowledge of arithmetic skills, or at least functional recognition of numerals, when pricing, making inventory checks, etc. The hearing-impaired EMR person will perform better in a grocery-stock position if he is capable of good visual-perceptual skills, especially concerning balance and depth perception. In the learning process, visual matching tasks are applicable in teaching recognition of various products, prices, or cash register keys, for example. Repetition and practice of the job tasks (which could be re-created in the vocational classroom setting) will reinforce the students' mastery, and especially increase the confidence needed in real job situations for the educable, hearing impaired person.

TRAINING PLAN FOR COOPERATIVE VOCATIONAL EDUCATION

The (Name of Business Firm) will permit (Name of Student) from (Name of School)

High School to enter their establishment as an employee under the supervision of (Name) for the

purpose of gaining knowledge and experience in the occupational area of Stock Person so that

the student may prepare for a career as a(n) Grocery Stock Person (Stock Clerk)

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	Skills Related to Job Success				
	1. Know possible transportation routes, or other possible ways of getting to work	X	X		
	2. Punch in on time clock according to schedule	X	X		
	3. Punch out for scheduled breaks and lunch	X	X		
	4. Check with supervisor at end of shift before punching out	X	X		
	5. Know not to punch anyone else's time card	X	X		
	6. Know company policy on calling in sick, other absences, or tardiness	X	X		
	Grooming Skills				
	1. Keep regular routine of shower, shampoo; include fingernails clipped, stay cleanshaven	X	X		
	2. Be responsible for proper care of uniform, do not wear jeans or canvas shoes	X	X		
	3. If applicable, keep hearing aid clean, in good working order, and well-protected by clothing on the job	X	X		

Approximate Time	Learning Activities	OUT	In School	Evaluation	Individual Study Assignment
159 continuous	Work Habits and Attitudes				
	1. Check with supervisor upon starting shift for additional job duties or changes in aisles to be stocked	X	X		
	2. Be friendly and helpful if customer needs assistance, otherwise work quickly and quietly	X	X		
	3. Be dependable and willing to work	X	X		
	4. Check with teacher and work supervisor about application and responsibility for union rules and policies	X	X		
	5. Inform manager of suspected shop lifters, do not try to approach anyone by yourself	X	X		
	Safety in Work Area and Personal Safety				
	1. Be familiar with general safety rules of store and how to avoid common causes of accidents	X			
	2. Know all duties and location of fire exits in case of fire. Never block these areas with skids, boxes, trash, etc.	X			
	3. Know how to use fire extinguisher		X		
	4. Keep aisles free of debris on floors or shelves	X			
	5. Do not overstock height limits of shelves or displays, especially with glass items	X			
	6. Keep floors as clean and dry as possible	X	X		
	7. Properly dispose of broken glass or other damaged items found in store or stock area	X			
	8. Learn not to overstuff incinerator with trash	X			
				Continuous until student competently performs skills and behaviors as listed for job Time adjustments for learning individual items may be necessary	

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	9. If customer has accident <ul style="list-style-type: none"> a. help injured person b. ask for witnesses' names c. check condition of premises d. inform manager immediately of all such incidents 	X X X X	X X X X		
	10. Move skid carefully to side of aisle where shelves are located when stocking, never block aisle	X			
	11. Use firm motion down and away from fingers when opening cases with razor cutter, never leave tools in aisle	X			
	12. Do not wear canvas or cloth shoes	X	X		
	13. Recognize personal hearing limits, extra care is needed to avoid accidents	X	X		
	14. Do not hurry so much as to become careless in your work	X	X		
two weeks	Stock Clerk Duties				
	1. Unloading trucks				
	a. organize backroom for adequate unloading space	X			
	b. count entire load with truck driver to make sure amount agree	X			
	c. wheel loaded carts into proper stock area	X			
	d. check off supply on appropriate order or invoice form	X			
three weeks	2. Backroom set-up				
	a. separate merchandise by aisle and shelf layout, arrange on skids	X			
	b. clean up any broken or damaged stock from truck	X			
	c. unload new merchandise with regular backstock, rotate so all older stock is shelved first	X			

160

241

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
two weeks	d. keep back area neat, do not "lose" or misplace merchandise	X			
	e. load and move carts carefully when taking stock to store	X			
	3. Unloading and opening cases				
	a. unload only one cart or skid per aisle, on every other aisle	X			
	b. place case on floor in front of same product on shelf	X			
four weeks	c. open cases by cutting around three sides of glass or canned goods, open box items (cereal, soap, mixes) by hand, to avoid cutting into product packages	X			
	4. Stamping prices				
	a. use freshly-inked stamper, set on code letter assigned for item	X	X		
	b. set price on stamper by turning rubber discs, check setting by stamping on shipping carton	X	X		
	c. be able to properly identify all appropriate numeral combinations	X	X		
	d. check with manager for proper use of \$, ¢, and unit signs (5/\$1)	X			
	e. stamp prices across items in cases in "S" shape pattern for maximum efficiency and speed	X			
	f. stamp merchandise on top of item or in white price spot designated by manufacturer	X			
	g. check with manager to determine whether dry goods (noodles, beans) and dairy or frozen foods may need price stickers	X			
	h. always check price book to be sure price agrees with shelf merchandise	X			

Approximate Time	Learning Activities	OUT	In School	Evaluation	Individual Study Assignment
four to six weeks	i. to change price, remove old price with rag and alchohol; re-stamp new price. On box items, cross out old price and re-stamp. Mark price sheet invoice as to how many prices were changed	X			
	5. Stocking shelves				
	a. learn to use both hands independently to:	X			
	1. pick up full rows of box items (cereal) from case and place on shelf	X			
	2. pick up canned or glass items two in each hand (if capable) and shelf	X			
	3. pick up handled cartons (bleach, milk) two in each hand and shelf	X			
	4. stock paper products from case in full rows, picking up as many as possible	X			
	b. face all labels to front of shelf	X			
	c. stock no more than one stocking cart per aisle at one time	X			
	d. move old items to front of shelf (new merchandise behind it)	X			
	e. pick up case and brace between second shelf and your body when stocking high shelves to save bending time	X			
	f. do not stock higher than customer can reach (not over 6 feet)	X			
	g. remember to clear floor area before going on break or lunch	X			
	h. place damaged merchandise from case into assigned cart or area	X			

Approximate Time	Learning Activities	OJT	In School	Evaluation	Individual Study Assignment
	c. load "alike" items together				
	1. sack meats together (in double bag if leaking) Do not load soap products with meat; may spill and spoil taste	X			
	2. frozen foods together	X			
	3. bread and other crushables should be at top or in separate sack	X			
	4. light produce at top of sack	X			
	d. do not sack paper items with meats or vegetables that leak	X			
	e. load heavy items (potatoes, soft drinks) directly in shopping cart	X			
	f. load sacks into cart for customer	X			
	g. assist customers with heavy sacks to their automobile	X			
	2. Cleaning duties				
	a. use push broom on floor of store	X			
	b. dampmop area with soapy water for wet or sticky messes	X			
	c. clean up debris from floor area and backroom stock area	X			
	d. use cleanser on fixtures in employees restroom; dampmop floor when necessary	X			
	3. Miscellaneous				
	a. answer customer questions as best able or refer them to someone who can answer questions	X			
	b. check with manager regarding special displays, set-ups	X			
	c. refill cashiers' grocery sacks supply from stockroom, daily or as needed	X			
	d. bring grocery carts in from outside; carefully avoid people and traffic you may not hear	X
